Did you know?

You can now send bottle tops for free via your local post office

: Freepost LUSH GREENHUB

#recycling #reuse #plasticfree

The bottle tops are melted down, pressed into board and made into useful things like from wall cladding to furniture and beehives. They've even been used to make a play area at a refugee camp in France!

Please help us by recycling your plastic bottle tops and placing them into the box.

Thank You 🙂
